Prime Blue 3

June 2019

Edition 2, Vintage 3

## Ready for the season!

Unfortunately, 10 of our common sunbeds were damaged last year. They are quite costly to replace, but we have ordered new ones.

They were damaged most probably due to people using them as "chairs" for several persons.

Each sunbed can only take one person.

If you want to enjoy the pool area for having a conversation, playing games or having a meal – please use our tables and chairs for such purposes.

## The water company

...

The water company has moved their location, but they also have opened a small service at the Mavisehir market where you can fill up your watercard.

## Our expenses so far

By the end of March, our controllers got the financial report Q1-2019. I have so far got no comments on that.

The list of expenses presented below is grouped into main purposes.

Please do not hesitate to ask if you have any questions about how our money has been spent.
